

2017-2018 Academic Year

Grow Bag Distribution and Awareness Programme On Organic Farming

Bhoomithrasena club of Sree Narayana Guru College, Chelannur distributed filled grow bags and seedlings to local people for creating a vegetable garden at their homes. The formal inauguration of the program was done by Principal, Dr. Devipriya V on 11 February 2020. Club members made aware of the local people about the importance of organic farming. Potting mix was prepared by mixing soil, coco peat, and cow dung in a 1:1:1 ratio which ensures good drainage and airflow for strong root growth in 'grow bags'. The seedlings were bought from 'Niravu', Vegeri. The seedlings include chilly, lady's finger, tomato, brinjal, beans, etc.

Vegetable cultivation, Tree sapling distribution, and plantation program

On June 5th, World Environment Day, the distribution of tree saplings and the plantation program was inaugurated. Dr. Devipriya V, Principal of SNG College, inaugurated the program. In this program, students distributed tree saplings to every household in Chelannur Grama Panchayath. Students distributed 5 saplings to each household. The students educated the people about the importance of planting trees. The students so far completed visiting 150 houses and educated them about the importance of having trees. The kids in the neighboring community were educated about a clean environment. Smt. K R Lesitha and Dr. ES Abhilash coordinated this program.

Moving Library for neighbors

The Malayalam Department started this program to improve the reading habits of women in the neighboring community. Students visit households and lend books to women. Students visit them after a week with a new set of books. The old books will be returned and the new books will be issued. This program has been live for the past four years. Dr. Deepesh Karimpunkara, Dr. Anusmitha N. and Bindu MK guide this program. As part of World Reading Day, the Department of Malayalam distributes 100 free books every year to neighboring women.
